85422101

## Electronics platform

230 V incandescent lamps and halogen lamps	per channel 35/300 W
Dimmable energy-saving lamps	per channel 15/54 W
Dimmable conventional transformers	per channel 35/300 VA
Electronic transformers and dual-mode	per channel 35/300 W
Number of substations	unlimited
Load cable length	max. 100 m
Screw terminals (max.)	2 x 1,5/1 x 2,5 mm <sup>2</sup>
Energy-saving	low intrinsic energy requirement
soft startup	bulb-preserving soft startup
Dimming principle	automatic setting of load-dependent switching principle (autoDetect process) ; phase cut-on or cut-off according to load type, self-learning
fuse	short-circuit and overload proof (electronic fuse)
Type of connection	with screw terminals
