PRO LINE SCREWDRIVER 2023

 Made in Germany

THE ERGONOMIC PRO LINE KRAFTWERK SCREWDRIVER – THE EXPERIENCE OF UNSURPASSED QUALITY

Many handles are called ergonomic, but it is always the hand that has to adapt to the handle.

PRO LINE Kraftwerk screwdriver is the only handle that adapts to the user's hand.

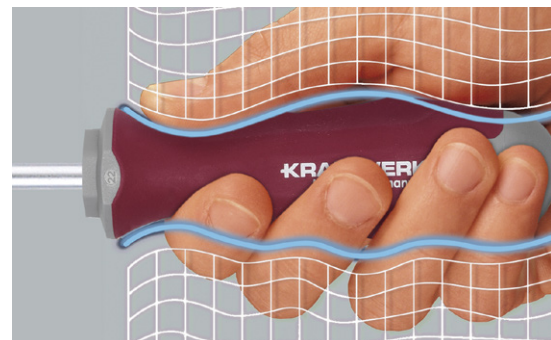

The flexibility of the 3-component PRO LINE Kraftwerk screwdriver handle provides perfect ergonomics, torque transmission and work comfort

The impact proof handle core made from polypropylene is coated with durable Elastomer with embedded cells of highly flexible plastics. The handle fits perfectly into the hand at all times with pressure causing an interlocking of hand and handle.

Expenditure of energy sinks and comfort increases, enabling the user to reach higher torque and longer fatigue-free work. The flexibility of the handle also enhances sensitivity and precise control of torque.

Kraftwerk PRO LINE screwdriver is a unique screwdriver, test it and convince yourself.

 **Made in Germany**

Perfect ergonomics = perfect transmission of torque

PRO LINE KRAFTWERK SCREWDRIVERS AT A GLANCE

1... Screw symbols on the handle cap

2... Seamless cap for minimal friction

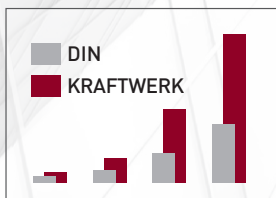

3... Cross hole for easy storage or inserting lever to achieve higher torque

4... Anti-roll handle design

5... Longevity due to use of chrome-molybdenum-vanadium steel

6... Black Tip for precise fit

Performance exceeding DIN-standards by up to 100%

PRO LINE Slotted Screwdriver

- MADE IN GERMANY
- Ergonomic gel cushion handle that adapts to the hand
- Three component handle
- Smooth, seamless handle for maximum confort
- Handle with anti-roll design
- Hole on screwdriver head
- Screw symbols on the handle cap
- Precision tip with high quality magnet guarantees high fitting accuracy and durability
- Continuous hard core on handle
- Blade made of special chrome vanadium alloy
- Above DIN/ISO requirements
- Optimal power transmission
