## KNX

### Technical features

#### Connectivity

|                           |    |
|---------------------------|----|
| Bus system LON            | no |
| Bus system Powernet       | no |
| Bus system radio frequent | no |

#### Voltage

|                   |       |
|-------------------|-------|
| Operating voltage | 240 V |
|-------------------|-------|

#### Dimensions

|                                    |           |
|------------------------------------|-----------|
| Width of rail mounted device (RMD) | 4 modules |
|------------------------------------|-----------|

#### Settings

|                               |        |
|-------------------------------|--------|
| Supported configuration modes | system |
|-------------------------------|--------|

#### Safety

|                     |      |
|---------------------|------|
| Protection index IP | IP20 |
|---------------------|------|

#### Identification

|                  |     |
|------------------|-----|
| Main design line | KNX |
|------------------|-----|
