

Datasheet | S59011

SLC PWM Reverse voltage filter TW/RGB/RGBW

Voltage filter that enables stable PWM dimming of long LED strips and low dimming levels, protecting against reverse voltages.

Electrical

Input	12-48VDC
Technology	Constant voltage (CV)
Power (W) multi	Max:120Wx4@24V, 240Wx4@48V
Current out multi	Max 5A x 4
Reverse voltage protection	Yes
